South Oakland	409
West Oakland	402
Point Breeze North	1405
Stanton Heights	1005
Middle Hill	501
Upper Hill District	506
Uptown/Bluff	103

* Please note that the neighborhood boundaries are not necessarily the eligible CARL areas; the boundaries for the eligible CARL areas are determined by Census Tracts which can be found next to the neighborhoods listed.

** The CARL program is offered in 57 census tracts in the City of Pittsburgh. To find out the census tract for a property you have identified, you can go to: bit.ly/CensusTracts > select "2014" in the drop down menu > enter the address of the property (include the street number, street name, and city) and click "search" > and then click "Census Demographic Data" on the left. The Census Tract will be shown on the left next to "Tract Code" and on the map within the Census Tract boundaries (the red dot indicates your property location, and the blue lines immediately surrounding the red dot indicates the Census Tract boundaries).
